LONG TENNESSEE FIGHT.

For twenty years W. L. Rawls of Bells, Tenn., fought nasal catarrh. He writes, "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Arnica Salve to the sore surface, this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at all druggists.

The old Long Bridge connecting Washington with the Virginia shore over which the panic-stricken soldiers retreated from Bull Run, is to be destroyed.

Nervous Indigestion

The action of digestion is controlled by nerves leading to the stomach. When they are weak, the stomach is deprived of its energy. It has no power to do its work. If you want permanent relief, you must restore this energy. Dr. Miles' Nervine restores nervous energy, and gives the organs power to perform their functions.

"For many years I was an acute sufferer from nervous indigestion; at times I was so dependent I seemed almost a burden. I tried all kinds of remedies and various physicians with little or no relief, until one night last summer I saw Dr. Miles' Nervine and Heart Cure advertised. I resolved to make one more trial, which I did in the purchase of one bottle of Nervine and one of Heart Cure. In a few days I began to feel better, which encouraged me so much that I continued the medicine until I had taken more than a dozen bottles. I am very much improved in every way; in body, mind and spirits since. I make a special point to recommend the medicine, and I feel a sincere pleasure in knowing that several persons have been benefited through my recommendations."
A. S. MELTON, Asheville, N. C.
Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

CHAIN ON THE NATION'S PURSE

IS NEEDED TO KEEP UP THE MILITARY DISPLAY.

Two-thirds of Revenue Goes For Wars—Plenty of Big Guns, With None to Work Them.

Washington, Dec. 19.—Nearly two-thirds of the revenues of the federal government are devoted to the payment of charges and expenses incurred by past wars and in preparation for future wars, was the rather startling statement made by Senator Hale, of Maine, chairman of the committee on naval affairs, in the senate today. He said he did not believe congress or the country realized that fact because it had not been pointed out to them before. The senator made this impressive declaration during the debate apropos the bill to increase the artillery corps.

Senators Hale and Scott indulged in a discussion deploring increasing expenditures in the army and naval establishments. It was occasioned by the postponement of action on a bill increasing the artillery corps. Mr. Warren remarked that he should press this bill to a conclusion before the session adjourned. Appropriation bill came up, as he believed it useless to appropriate between \$6,000,000 and \$15,000,000 a year to increase the fortifications of the country and then fail to provide men to properly man them. "We now have three guns to every man," he remarked, "and have expended more than \$100,000,000 in carrying out the scheme of fortifications recommended by the Endicott board and yet have made no increase in the artillery corps."

As Bad in the Navy.
"The senator is right," said Mr. Hale. "The disease is just as deep in the navy, and I am inclined to think deeper, than it is in the army. I have tried for years and shall try again this year to keep down naval expenditures. But the military establishments are alike. Each is seeking to aggrandize itself."

"I don't suppose the people of the country appreciate it. I don't know that the senate does—that two-thirds of the revenues of the country today are devoted to the payment of the burdens of the past years, like pensions and expenditures in view of future wars."

"Of all the taxes that are laid and all the revenues collected nearly two-thirds are expended for the military in a broad way."

Senator Scott observed that during the summer he had visited nine coast fortifications and found the big, new, expensive guns sewed up in canvas as they should demand that some measure be passed to secure adequate care of these guns or that no further expenses be incurred in that direction.

SIX COMRADES

Perished in the Blizzard From Which Two Lumbermen Escape.

Portland, Me., Dec. 19.—It is considered a certainty that six out of eight lumbermen who started to cross Big Schoodic lake on the ice a week ago Friday, perished in a terrible north-easterly blizzard that swept over the lake shortly after they started. Two survivors of the party, George Angel, of Providence, R. I., and John Kernan, of Boston, arrived here, walking 200 miles from Bangor with their feet and ears frozen and blistered, and sick and exhausted from their terrible suffering.

Acting on information from these men, which was wired from here, a searching party went out in Schoodic, but could find no trace of the other six men.

Says Soldiers Fired On His Car.

Pensacola, Fla., Dec. 19.—Charges have been preferred by a co-defendant of a train from Pensacola to Ft. Barrancas, alleging that soldiers at that point fired on his car from ambush. On reaching Barrancas the soldiers, about 20 in number, alighted. The car stopped ten minutes at the fort before beginning the return trip. The conductor avers that within a short distance from the post, on the return, a volley was fired at him. He was on the rear platform and alighted, returning the fire with a revolver. He says his assailants, whom he recognized as soldiers, then fled.

Hits At Child Labor.

Washington, Dec. 19.—Senator Gallinger introduced an amendment to the pending bill to prohibit child labor. He would prevent the employment of children under 14 years from running errands, or any of the so-called street employments, as well as working in stores and factories. He exempts pages in the house and senate.

College For All Farmers.

Washington, Dec. 19.—Representative Livingston, of Georgia, introduced a bill appropriating \$10,000 a year for the support of an agricultural college in each congressional district of the United States. The money is to be paid to states and territories and disbursed as state laws provide.

When Committee Meets.

Washington, Dec. 19.—Several subcommittees of the house committee on rivers and harbors met and Chairman Burton announced that the full committee will meet December 31 for final consideration of the rivers and harbors appropriation bill.

Orders Misunderstood.

Carnal, Ill., Dec. 19.—As the result of a wreck on the Big Four, Fred Hall, of this city, was instantly killed and Harry Musgrave, conductor, received fatal injuries. The wreck was caused by a misunderstanding of orders.

Some farmers think the very large one ear-to the stalk corn will produce more grain than two medium ears to one stalk, says the Southern Agriculturist. They are mistaken. Big one ear-to the stalk is not the thing; two well filled medium ears per stalk is the true system of producing the most grain per acre. The Agriculturists last fall advised going through the field and selecting the two ear corn for seed. The two ear seed corn will produce five or more bushels per acre more than seed from the one ear large corn.

R. B. Mullins lost a couple of good milk cows this week, by their breaking into a dry stalk field and eating of the dry fodder from the effects of which they died within twenty-four hours.

W. J. Sparks and Clarence Ferguson have a couple of cows that have been sick for over a week, they are thought to be afflicted with mern.

A WESTERN WONDER.

There's a Hill at Bowie, Texas, that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds, has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of consumption. I was reduced to 90 pounds when I began taking Dr. King's New Discovery for Consumption, Coughs and Colds. Now after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure Cough and Cold cure. Guaranteed by all druggists, 50c and \$1.00 Trial bottle free.
